

*James Hardie's HZ5 product line offers siding with specific performance attributes engineered for the New England climate. To ensure it's beauty matches its durability, the surface is engineered for higher performance, giving it superior paint adhesion and moisture resistance.*

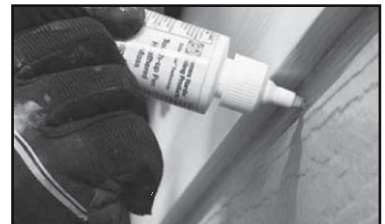

- Color Consistency and quality of factory application in 20 popular colors
- Specially formulated paint to retain color and resist fading
- Baked-on color process for maximum durability, provides a mar resistant coating and assures the finish will resist peeling, chipping and cracking
- 15-year finish warranty from one reliable manufacturer
- Install product and walk away

- Durability**
  - Won't crack, warp or rot, even in the harshest climates
  - Maintains beautiful appearance over the lifetime of the product
- Maintenance**
  - Requires less maintenance with the warranted durability of fiber-cement and ColorPlus technology
- Pests**
  - Impervious to termites and other pests
- Total Finish Quality**
  - Multi-coat baked on finish ensures color quality and consistency
  - Mar-resistant coating and removable plastic laminate protect finish during shipping and installation; color-matched touch-up kit and edge coater included for final finishing
- Installation**
  - Does not require field applied on-site paint contractor
  - James Hardie Installation Specialists train contractors on best practices
- Simplified Warranties**
  - 30-year limited, transferable warranty offers nonprorated product coverage for the entire 30 years and 15 year warranty on the finish
- Installed Value**
  - For the 4th year in a row, James Hardie fiber cement siding has been named the #1 return on investment, according to remodeling magazine's 'Cost vs. Value Report'

**Protective Plastic Laminate**

**Color Matched Touch-up Kit**

## VINYL SIDING

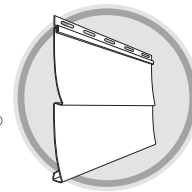

*A trusted brand of*  
**Alcoa Home Exteriors**  
RETAIL DISTRIBUTION GROUP

### Why Cellwood® Vinyl Siding

Just like the other products you use every day, vinyl siding has come a long way. Cellwood® uses the latest in PVC polymer technology and the best materials—like high technology proprietary resins and Kynar® thermopolymers to provide uniform color and gloss finishes as well as UV ray and harsh weather resistance.

## Progressions®

*Setting The Standard For Beauty*

*Double 4"*  
**PG40 Progressions  
Double 4"**  
Nominal .042" Thick  
Length: 12' 6"

*Full-Size Lock—provides stronger, more secure installation*

**CELLWOOD** **COMPETITOR**

*.042" Thickness*

*Full 1/2" Profile Height—increases rigidity, so panels will hang straighter*

**CELLWOOD** **COMPETITOR**

*Full-Length Return—so panels don't come unlocked*

**CELLWOOD** **COMPETITOR**

*Realistic Woodgrain Texture*

**Longer Lasting**

For enhanced weatherability and resistance to fading, darker colors use quality proprietary resins.

*Without Proprietary Resins*      *With Proprietary Resins*

### Cellwood® Vinyl Siding

- Never needs painting or staining
- Does not absorb water
- Resists mold, mildew, and wood-boring insects
- Looks better longer by resisting impact, weather extremes, pollutants, and harsh UV exposure
- Cleans easily, often with just clear water and a garden hose

Lifetime limited warranty  
All Cellwood products are backed by a lifetime limited warranty.

Rustic charm  
Sound knots  
Contrasting tones

Maibec's 3 grades of American Classic Shingles are cut from Eastern white cedar. Cedar is naturally resistant to decay and insect infestation. As a result, your shingles can stand up to the tough weather of New England with no additional maintenance. Moreover, all three styles come factory-stained in a variety of Cabot® O.V.T. colors. Or, if you prefer the traditional silver gray, Cabot® Bleaching Oil™ ensures your shingles will age uniformly.
